Engineering with Purpose

With over 8 years of experience in full-stack development, I bridge the gap between complex backend logic and fluid frontend experiences. I don't just write code; I build solutions that scale, perform, and delight users.

PROJECTS

12
AWARDS

```
const createExperience = async ({ user, design }) => {
  // Initialize premium feel
  await design.apply({
    theme: 'dark',
    interactivity: 'fluid',
    accessibility: true
  });
  return new Product(user);
};

// Ready to deploy?
_
```

GET IN TOUCH

Let's build something extraordinary.

I'm currently available for freelance projects and open to full-time opportunities. If you have a project that needs some creative injection, let's chat.
